Book Club has selected it as their next read, and we would like to encourage our congregants to read it as well.

## Sanctuary Update

Simpson Environmental Services began the sanctuary asbestos abatement project on January 20th. We anticipate the work will be completed by the middle of February. During this period, the downstairs and board room has been sealed off and not available for usage by Temple members. Once we get a clean air quality testing report we will reopen the Temple Building. After the asbestos abatement project, the next steps will be to refinish the ceiling, replace the flooring, and complete other needed interior repairs. We look forward to being back in our sanctuary for the High Holidays.
